**IN THE ABSTRACT:**

Please replace the Abstract of the Disclosure originally filed with the above-identified patent application with the following new Abstract of the Disclosure:

ABSTRACT OF THE DISCLOSURE

A laminated coil includes a non-magnetic body section inside a laminated body. On the non-magnetic body section, a coil conductor is provided. The number of coil turns of the coil conductor is greater than the number of coil turns of a coil conductor other than the coil conductor on the non-magnetic body section.
